

Lenin Anibal Moreno Vargas

Ambato, Ecuador • [linkedin.com/in/lennymv](https://www.linkedin.com/in/lennymv) • +593996356845 • lenin.m.v@outlook.com

Software Engineer with one year of experience as a web developer. During my university studies, I worked on team projects developing web, mobile, and desktop applications. I have collaborated on and developed real-world projects using modern tools for local companies and businesses. I am eager to expand my knowledge and skills as a software developer.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, Kotlin
- **Frontend:** HTML5, CSS3, Angular, Bootstrap, Responsive Design
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** PostgreSQL, Oracle, MySQL, SQL
- **Tools & Technologies:** Git, GitHub, Postman, Version Control
- **Methodologies:** Agile Development

PROFESSIONAL EXPERIENCE

Neo-fármaco Ambato, Ecuador

Full Stack Developer September 2024 – December 2024

- Collaborated in the development of a web-based document management system for a pharmaceutical company to reduce review, editing, and approval times.
- Implemented core logic for modules including training courses, notifications, and workflow automation.
- Developed a responsive platform optimized for multiple devices and screen sizes.
- Secured sensitive information such as passwords through encryption protocols.

Empresa Eléctrica de Ambato (EEASA) Ambato, Ecuador

Software Development Intern December 2024 – June 2025

- Collaborated in the maintenance and implementation of new modules for web systems used by the local electric utility company.
- Enhanced backend logic to improve system performance and reliability.
- Developed and integrated new features into existing modules to meet business requirements.
- Created and optimized SQL queries and utilized ORM frameworks for database operations.
- Assisted in the maintenance and technical support of computer equipment and laptops.

Fetalis Ambato Ambato, Ecuador

Full Stack Developer January 2025 – July 2025

- Developed a web-based medical practice management system to minimize human errors in data entry and improve workflow efficiency.
- Designed the database schema and system architecture to ensure scalability and data integrity.
- Implemented user authentication, role-based access control, and encryption for secure data handling.
- Ensured compliance with Ecuadorian government regulations and standards for prescriptions, medical records, and certificates.
- Integrated ICD-10 (International Classification of Diseases) codes as established by the World Health Organization (WHO).
- Incorporated the National Basic Drug List (CNMB - Cuadro Nacional de Medicamentos Básicos) for standardized prescription management.

Mármoles Tungurahua

Ambato, Ecuador

Full Stack Developer

July 2025 – September 2025

- Developed a web-based optimization system for cutting patterns on stone slabs, reducing material waste and improving production efficiency.
- Designed and implemented the database architecture to support inventory tracking and project management.
- Created custom business modules tailored to the company's operational workflow and requirements.
- Generated technical reports with optimizer metrics and visual cutting diagrams for the production stage.
- Implemented an inventory control module and project quotation system based on business metrics and material usage calculations.

EDUCATION

UNIVERSIDAD TECNICA DE AMBATO

Ambato, Ecuador

Bachelor's Degree in Software Engineering

August 2025

ADDITIONAL SKILLS

- Foundational knowledge of computer hardware and maintenance.
- English proficiency: B1 level (CEFR).
